

Vision Backflow allows you to keep track of all assemblies by Type, Manufacturer, Make, and Model. This application integrates your Customer List from Vision Utilities, preventing the duplication of data entry.

Backflow Benefits:

- Track Assembly Testers
- Track Tester Info:
 - License Number
 - Certification Date and Expiration Date
 - Instrument Serial Number and Last Callibration Date
- Installation Tracking
- Property Tracking
- Integrated Assebley Test Notice Printing

Vision Backflow leverages the power of Microsoft SQL Server together with Reporting Services integrated into a Microsoft Office® based user interface to meet the needs of any utility provider.

We look forward to answering any questions about what we covered or what you wish to learn more about.
